

**PILOT BLOCK**

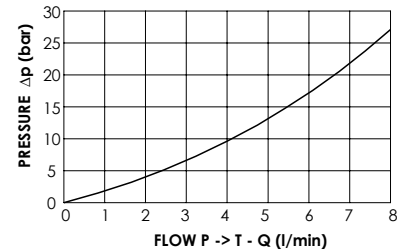

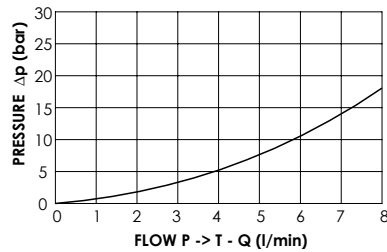

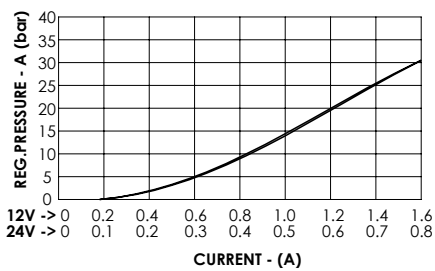

**BNND-003-LNQ**

**PROPORTIONAL  
PRESSURE REDUCING  
PILOT MANIFOLD**

**SPECIFICATIONS**

|                                 |                  |
|---------------------------------|------------------|
| <b>Max. operating pressure:</b> | <b>50 bar</b>    |
| <b>Rated flow:</b>              | <b>3 l/min</b>   |
| <b>Manifold:</b>                | <b>Aluminium</b> |
| <b>Weight:</b>                  | <b>5,8 kg</b>    |

**ORDERING CODES**

| Quick code | Description              | Main ports size | Regulated pressure range (bar) | Voltage (V) | Connector type |
|------------|--------------------------|-----------------|--------------------------------|-------------|----------------|
| BD000203   | BNND-003-LNQ-14-G14-NBAJ | G 1/4"          | 0-25                           | 24 DC       | AMP JUNIOR     |
| BD000204   | BNND-003-LNQ-14-G14-NAAJ | G 1/4"          | 0-25                           | 12 DC       | AMP JUNIOR     |
|            |                          |                 |                                |             |                |
|            |                          |                 |                                |             |                |
|            |                          |                 |                                |             |                |
