**TREVI BENNE** Abbiamo iniziato il nostro cammino 25 anni fa. Siamo stati audaci. Sfrontati. Innovativi. Non ci siamo mai accontentati. Abbiamo seguito il nostro istinto, guardando oltre. In 25 anni, dalla passione di un uomo alla realtà di un Gruppo. DOVEVIAMO SOGNARE PIÙ IN GRANDE. LO ABBIAMO FATTO. DAL 1992. Dal 1992 Trevi Benne produce e commercializza tecnologie ed attrezzature per macchine movimento terra diversificandole in tre linee principali di prodotto: attrezzature da demolizione, movimentazione e riciclaggio realizzando frantumatori, pinze, multi kit, cesoie per ferro, benne vagliatrici e benne frantoio per la selezione e il recupero dell'inerte; benne da scavo e carico, attacchi rapidi ed applicazioni speciali per escavatori e pale e caricatrici. Benne con profilo a richiesta, spessori maggiorati, materiali antiusura per impieghi gravosi, da cava e miniera, per escavatori sino a 500 t.; una linea dedicata al settore forestale per il taglio e la riduzione volumetrica di tronchi, alberi e la manutenzione stradale e boschiva. Trevi Benne è presente in oltre 50 differenti paesi con una rete di concessionari professionali, è un'azienda certificata TÜV per la qualità ed è inoltre sponsor attivo delle maggiori Associazioni dei Demolitori Nazionali ed Europei. Fornisce prodotti su misura con prestazioni indiscusse e una notevole durata. Prodotti e benne per escavatori su vari settori: demolizione, riciclaggio, movimentazione e movimento terra, forestale, cave e miniere 25 anni di storia. 25 anni di passione e impegno per il nostro lavoro.. 25 anni di sacrifici, di sfide, di successi nel segno dell'innovazione, del dinamismo e della flessibilità. 25 anni di ricerca, di sviluppo e perfezionamento tecnologico. 25 anni da protagonisti in Italia, in Europa e nel Mondo. Trevi Benne S.p.A. Via Bergoncino, 18 - 36025, Noventa Vicentina (VI) Tel +39 0444 760773 - Fax +39 0444 861182 - info@trevibenne.it We began our journey 25 years ago. We were daring. Bold. Innovative. We never settled for less than the very best. We followed our instinct, looking into the future. In 25 years, we built up on the passion of one man, to create a Group. WE DARED TO DREAM BIGGER. WE JUST DID IT. SINCE 1992. Trevi Benne has been producing and marketing technologies and tools for earth moving equipment since 1992, dealing in three major product lines: equipment for demolition, handling and recycling manufacturing pulverizers, crushers, multi kit processors, shears for metal, screening and crushing buckets for the selection and the aggregate site remediation; full range of digging and loading buckets, standard and reinforced, for excavators and loaders, rear and front quick couplers. Line of special buckets, with profile on request, using the best materials and anti-wear packages for quarrying and mining industry for excavators up to 500 tons; a line dedicated to the forest sector for tree felling, cutting and volume reduction of logs, road and forest maintenance. Trevi Benne is present in over 50 different countries with a network of professional dealers, is a TÜV certified company for quality and is also active sponsor of the major Associations of National and European Demolishers. 25 years of history. 25 years of passion and commitment for our work. 25 years of sacrifices, challenges and success in the pursuit of innovation, dynamism and flexibility. 25 years of research, development and technological improvement. 25 years leading the way in Italy, Europe and the world. Trevi Benne S.p.A. Via Bergoncino, 18 - 36025, Noventa Vicentina (VI) Tel +39 0444 760773 - Fax +39 0444 861182 - info@trevibenne.it Nous avons commencé cet aventure il y a 25 ans. Nous avons été audacieux. Effrontés. Innovants. Nous ne nous sommes jamais contentés. Nous avons suivi notre intuition, en regardant au-delà. En 25 années, à partir de la passion d'un homme jusqu'à la réalité d'une grande société. NOUS DEVIONS RÊVER PLUS EN GRAND. ET NOUS L'AVONS FAIT. DEPUIS 1992. Depuis 1992 Trevi Benne produit et vend technologies et outils pour pelles de terrassement en les diversifiant dans trois lignes principales de produit : outils pour la démolition, manutention et recyclage, en construisant broyeurs, pinces, multi kit, cisailles à fer, godets cr

### 📄 Descrizione

Since 1992 Trevi Benne has been manufacturing equipment for earthmoving machines, diversifying them into four main product lines: - demolition equipment created for the demolition of structures and buildings, separation of the ferrous and cementitious material, removal and reclamation of the inert material by producing crushers, pulverizers, multi kits, metal shears, rail cropper, screening buckets and sorting equipments for the redevelopment area; - equipment for recycling, crushing and selection of inert materials, for the railway industry, for professionals in the recycling and trade of ferrous scrap. Equipment suitable for handling, transporting and positioning various materials; - full range of standard and reinforced digging buckets for excavators and loaders, rear and front quick couplers. Line of special buckets with customized profile, with anti-wear equipment and increased thicknesses, designed for quarry and mining sector for excavators up to 500 t.; - a line dedicated to the forestry sector for the cutting and volumetric reduction of logs, for the felling and thinning of trees and road and forest maintenance. Trevi Benne is present in over 50 different countries with a network of professional dealers, is a TÜV certified company for quality and is also an active sponsor of the major National and European Demolition Associations.
